

# Metamask

Simple to use wallet, that acts like Google Chrome Extension. We prepared a guide to contribute with it, but if you need an instruction of how to install it, follow the simple steps from this [link](#).

- + *Easy to install*
- *Very poor functionality*

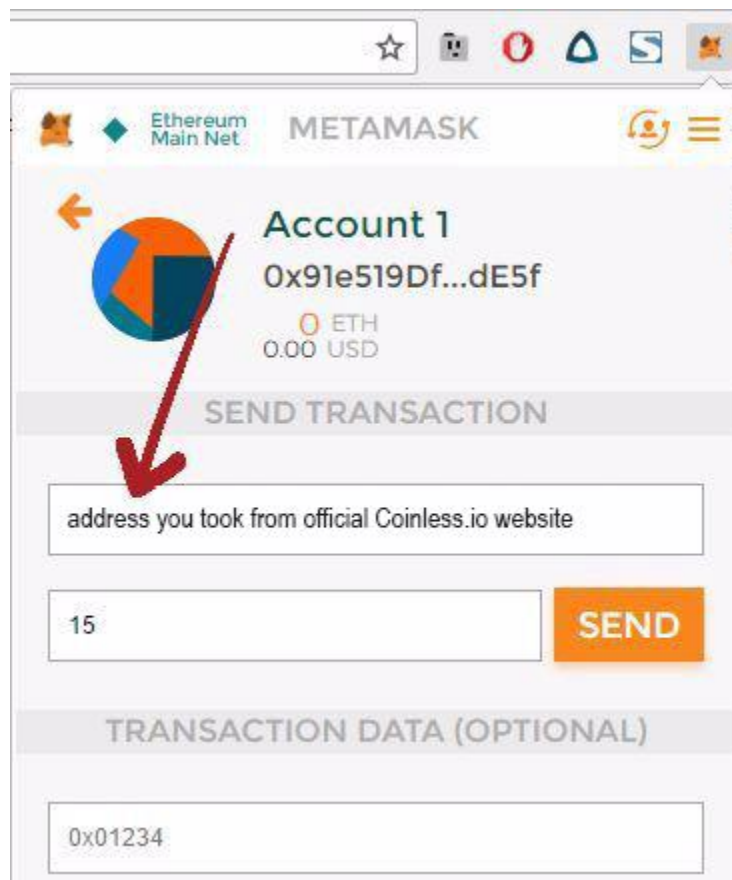

## Step 1. Click an icon of Metamask in your Google Chrome Browser

## Step 2. Click “Send”

## Step 3. In the “Recipient Address” field enter address you took from official Coinless.io website

**Step 4. Choose the amount of Ether you'd want to send and click "Send"**
