

MyEtherWallet

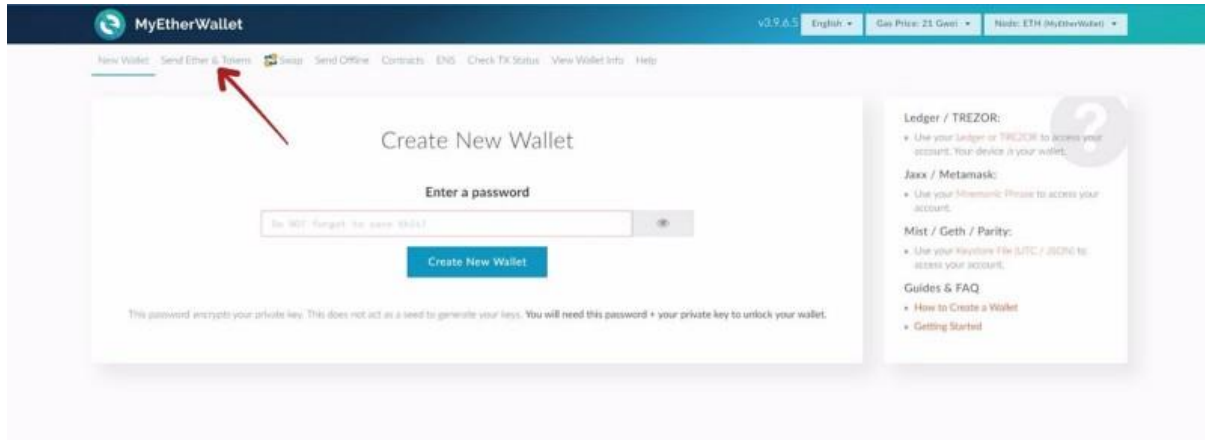

Popular and trustworthy wallet. Very good for beginners. Use this tutorial to contribute with it. If you don't have MyEtherWallet, use this [step-by-step instruction](#), to get it.

- + *Good balance of simplicity and security*
- *Limited Functionality*

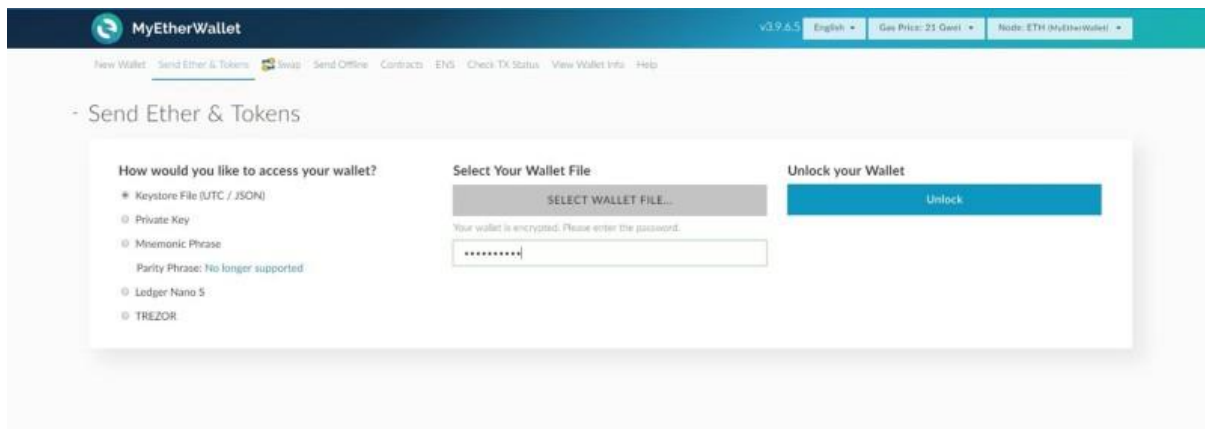

Step 1. Go to the official [website](#). Click “Send Ether & Tokens”

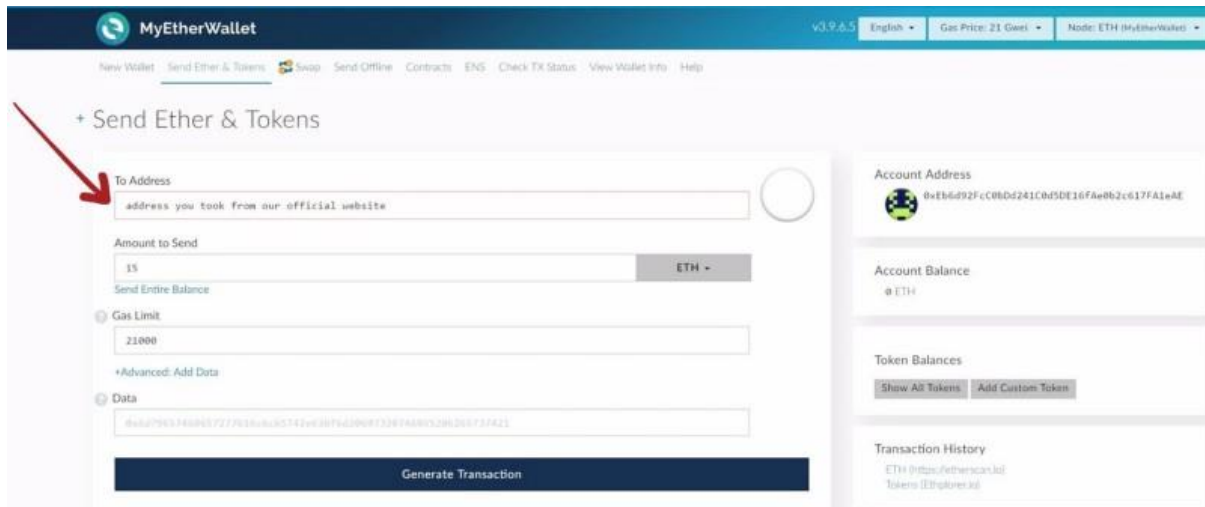

Step 2. In the field “How would you like to access your wallet?” choose “Keystore File (UTC / JSON)”

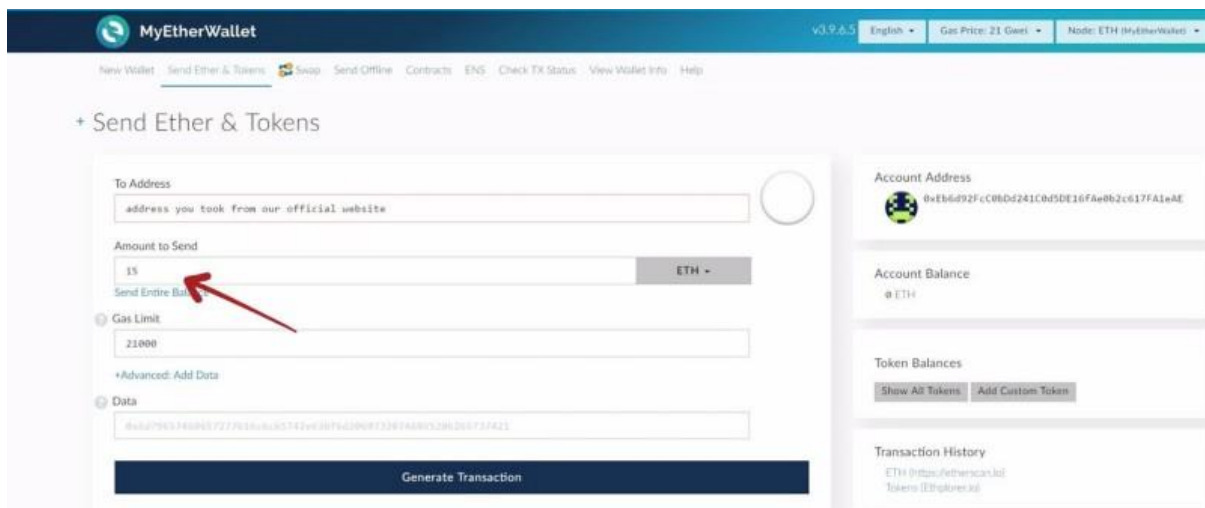

Step 3. Select your wallet file, press “unlock” and login to your account

Step 4. Now enter the address you took from Coinless.io official website

Step 5. Choose the amount of Ether you'd want to send, "gas limit" would be set automatically

Step 6. Click "Generate transaction" to complete the task.
